

Selective cleaning base oil M-20

Selective cleaning base oil M-20 is intended for the most commercial lubricants production.

TYPICAL PARAMETERS

Specification Test	Test method	Selective cleaning base oil M-20
Density at 15 °C, kg/m ³	GOST R 51069-97	889,8
Total Acid Number, mg KOH/g	GOST 11362-96	0,04
Flash Point, COC, °C	GOST 4333-2021	276
Kinematic Viscosity at 100 °C, mm ² /s	GOST 33-2016	21,35
Pour Point, °C	GOST 20287-2023	-15
Auto-ignition point, °C	GOST 12.1.044-89	386
Sulfur content, wt %	GOST 1437-75	1,10
Viscosity Index	GOST 25371-2018	95
Conradson carbon residue, wt %	GOST 19932-99	0,23
Ash content, %	GOST 1461-2023	Absence
Mechanical impurities, wt %	GOST 6370-2018	Absence
Water content, wt %	GOST 2477-2014	Traces
ASTM Color	GOST 20284-74	6,0
The content of methylpyrrolidone	GOST R 52532-2006	Absence
Refining solvent content	GOST 33093-2014	Absence
